

ec::TcpSocket

```
classDiagram
    class ec_TcpClient["ec::TcpClient"]
    class ec_TcpSession["ec::TcpSession"]
    class ec_TcpSocket["ec::TcpSocket"]
    ec_TcpClient --|> ec_TcpSocket
    ec_TcpSession --|> ec_TcpSocket
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'ec::TcpSocket'. Below it, a horizontal line connects two boxes: 'ec::TcpClient' on the left and 'ec::TcpSession' on the right. From the center of this horizontal line, a vertical arrow points upwards to the bottom of the 'ec::TcpSocket' box, indicating that both 'ec::TcpClient' and 'ec::TcpSession' inherit from 'ec::TcpSocket'.
